

# Automotive Interiors Expo 2012

June 14th 2012  
Stuttgart

Hugo De Winter

1. Recticel in automotive
2. Strengths
3. Movie
4. Innovation to contribute in ecological automotive ambitions
5. Conclusions

- Leading manufacturer of Polyurethane products.
- An international Belgian group with more than **11.000** employees, with over **120** production locations world wide.
- **4** Business Lines.
- Continuous research and development and investments in new technologies.

### 4 Business Line

Comfort & Technical Foams

41%

Automotive

23%

Bedding

## 1. Recticel in Automotive

- Our products
  - . . . Instrument panels
  - . . . Door panels
  - . . . Small interior parts
  - . . . Exterior parts

## 1. Recticel in Automotive

- Our customers, the OEM's

**BUICK**  
BUICK

Cadillac.

CHEVROLET  
CHEVROLET

DAIMLER  
DAIMLER

FREIGHTLINER®  
CORPORATION

HONDA  
HONDA

KENWORTH  
KENWORTH

LINCOLN  
ЛИНКОЛН

OPEL

Peterbilt

SCANIA

VAUXHALL

VOLVO

## 1. Recticel in Automotive

- Our customers, the first tier suppliers

# 1. Recticel in Automotive

## Global presence

### USA

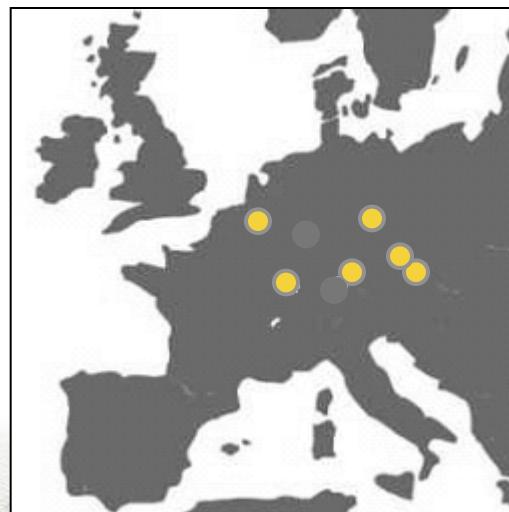

- Clarkston (MI)
- Tuscaloosa (AL)

### Europa

- Rheinbreitbach (D)
- Schönebeck (D)
- Unterriexingen (D)
- Wackersdorf (D)
- Mlada Boleslav (CZ)
- Most (CZ)

### Asia

- Ningbo (CN)
- Shenyang (CN)
- Beijing (CN)

## 2. Strengths in Automotive

- Our expertise

Unique grain reproduction characteristics, no plastic look, all colours

## 2. Strengths in Automotive

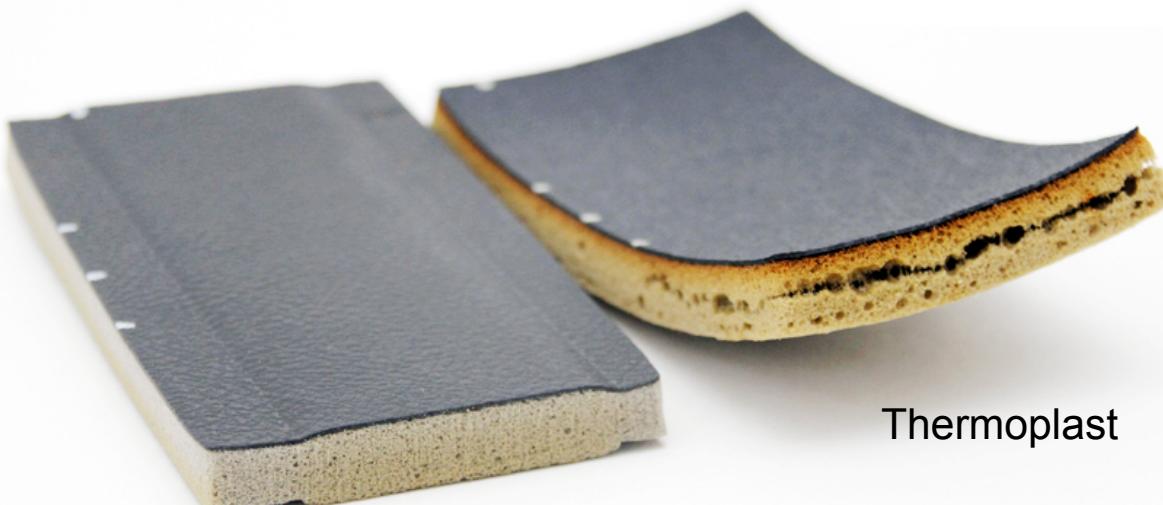

- A-surface competence

## 2. Strengths in Automotive

- Colo-Fast®, durability at severe sunlight c

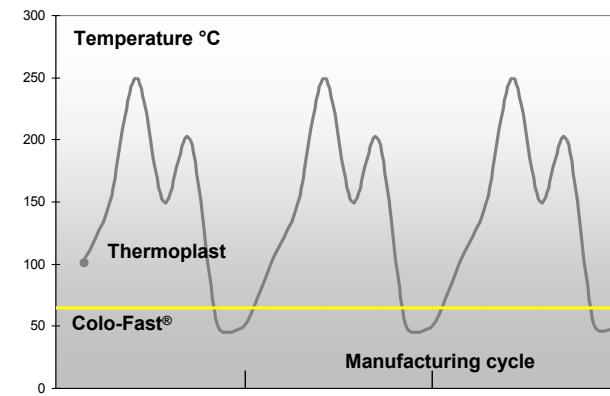

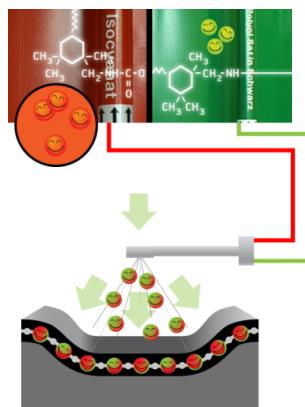

## 2. Strengths in Automotive

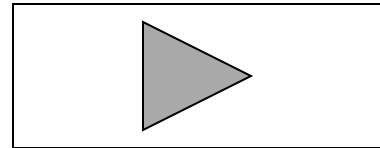

Colo-Fast® is a low temperature manufacturing process, due to exothermic PUR reaction mechanism

65°  
C

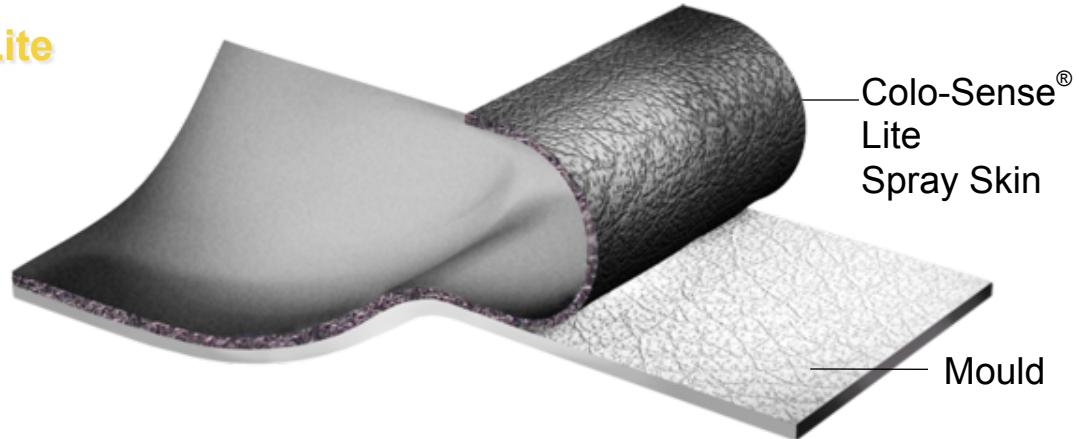

### 3. Movie

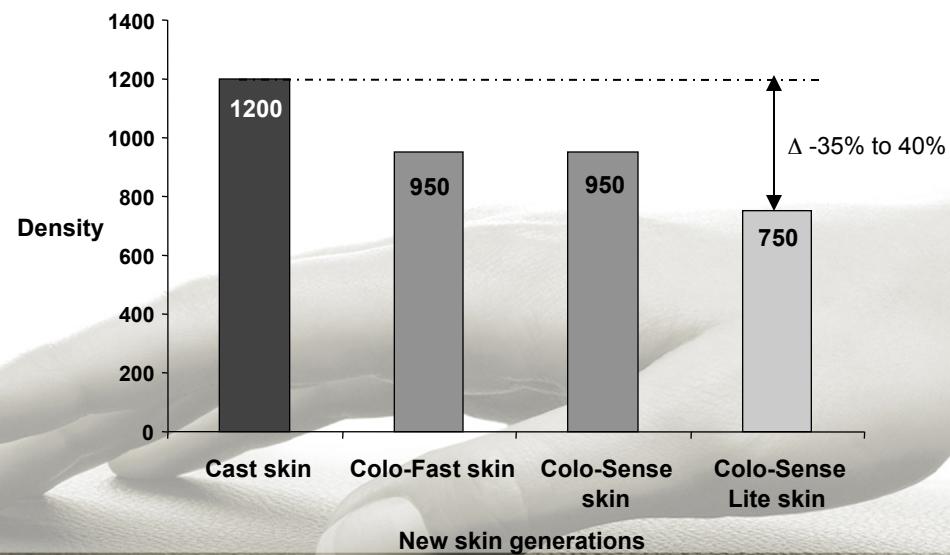

#### 4. Innovations, contributing in ecological automotive ambitions

##### Surface Material: **Colo-Sense® Lite**

- Reducing skin weight
- Possible use of bio-materials
- Cost savings
- Increased flexibility
- Increased part softness

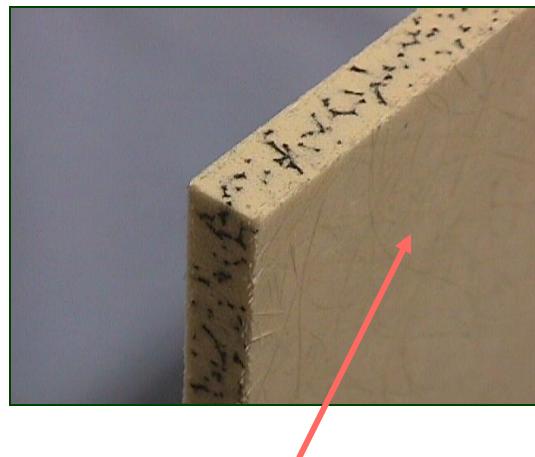

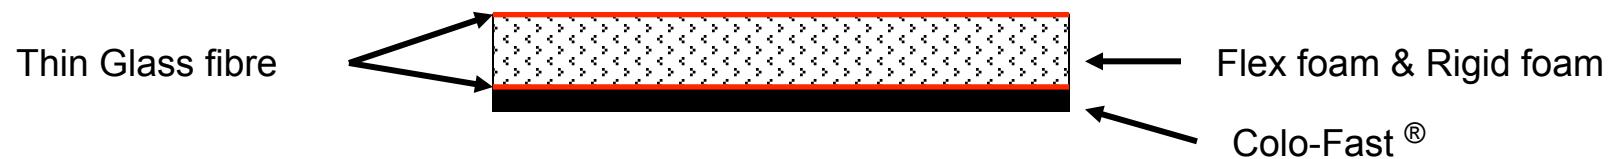

## 4. Innovations, contributing in ecological automotive ambitions

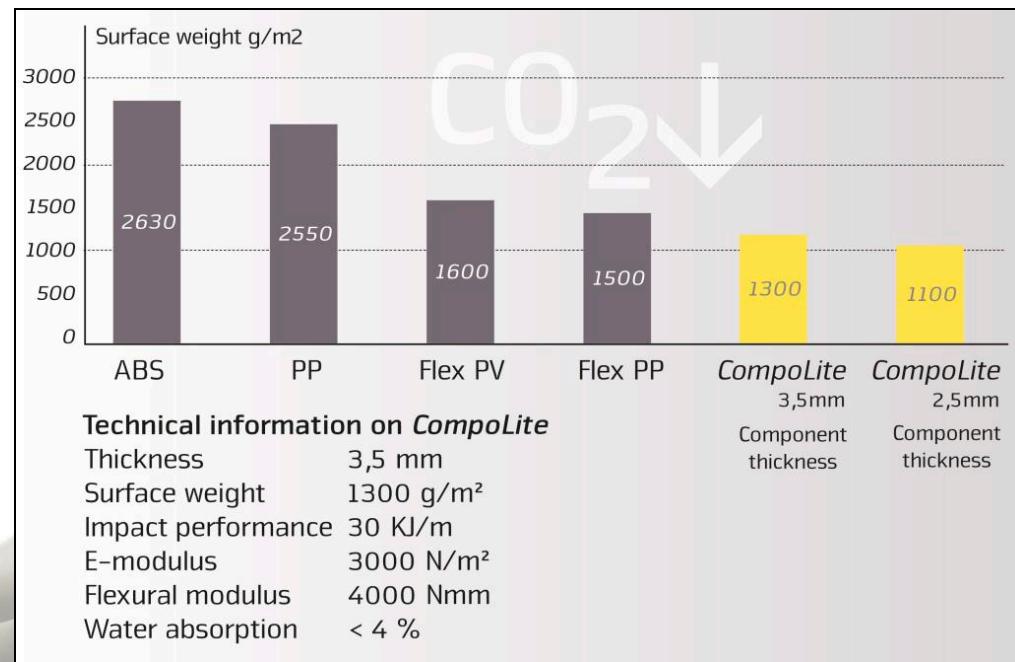

### New process concepts

*CompoLite*, a new A-surface product, the answer to weight saving automotive trends

*CompoLite* weight objectives:  
1100 – 1500 g/m<sup>2</sup>  
Reference NF >= 1600 g/m<sup>2</sup>

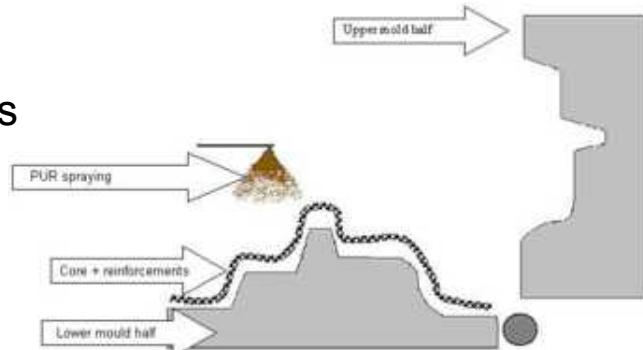

#### 4. Innovations, contributing in ecological automotive ambitions

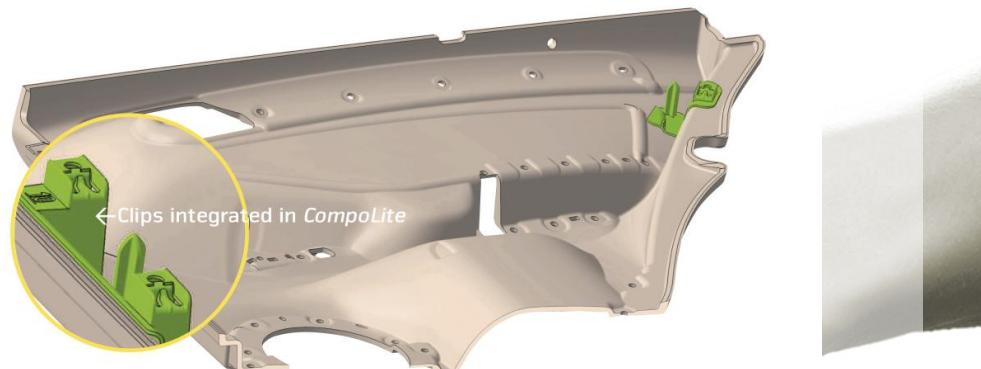

*CompoLite*, a new A-surface product, the answer to weight saving automotive trends

Based on sandwich technology :

- Composite lightweight PUR core
- Fibre reinforced outer walls for high stiffness
- Excellent strength vs. weight ratio
- Thickness variations possible
- One side spray technology
- Easy to shape without property loss
- One step in mold decoration possible

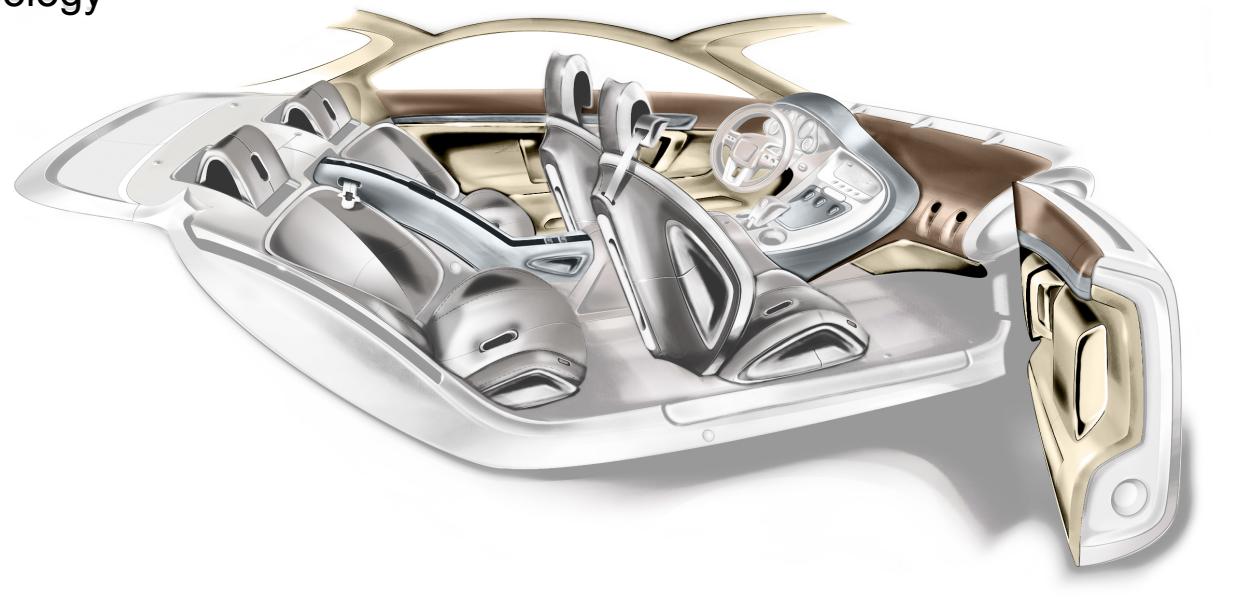

Door panel *CompoLite* + Colo-Fast®

Clips integrated in *CompoLite*

New Colo-Fast® skin concepts  
Offering harmony in A-surface

- Colo-Sense® Lite Spray technology
- Colo-Fast® ROM technology
- CompoLite Substrate

Thank you for your attention
