# INTRODUCTION

Factory tools and electrical appliances, Ltd "PLUS" is founded in 1965 as a factory for the manufacture of various tools and electrical appliances in which over 400 have been employed. This factory has been recognized by regional and wider market for quality and for its success as a renowned factory, this tradition we are trying to continue even after privatization.

We have privatized the factory in 2006 and we are continuing with a positive momentum for expanding production and increasing quality. We have made significant investments in setting up new production units within this factory to expand production and diversity of services; we also made the addition of new staff which is specialized in the field of our activity.

Tools' factory spaces are in the capacity of 11.000.00m<sup>2</sup>, which are equipped with all necessary conditions for the development of productivity.

From 2006 and beyond we have continued with production and expand the range of products and services, and this trend is always growing. We think that our company can fill all the parameters to conduct business with European standards as to the machinery that we have in our factory is perfect and their capacity for production is very big. Wide ranges of products we produce have led to more convincing step in the market and find longer range cooperation with all companies in Kosovo. So far we have good cooperation with the countries of the region, but our intention is that this collaboration grow even more as we think it may well we complete European market requirements and beyond.

# THE MISSION

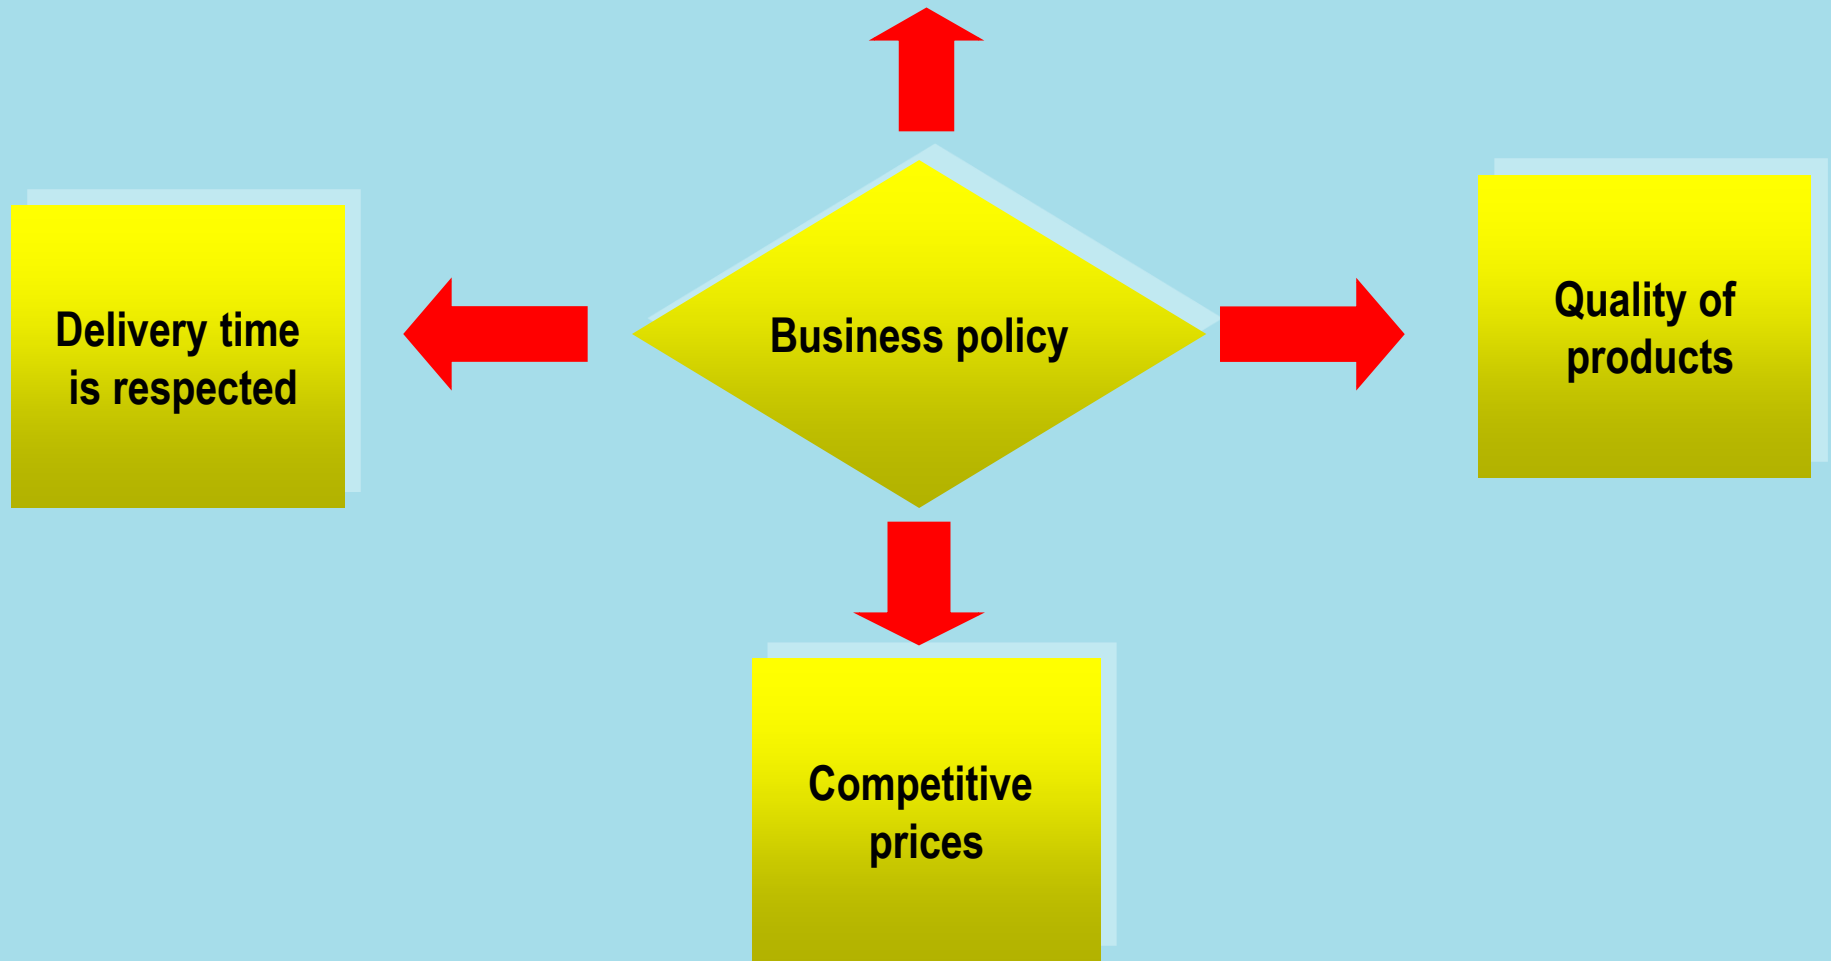

Our mission is to create strong relationships with customers and potential customers wherever they are to sustain their business and improve our production capacity by providing them products and high quality services and solutions that will support their growth.

# THE VISION

Our vision is to become a leading company in Kosovo and create the company's strong presence in foreign markets also. We as a company consider that despite the favorable conditions and a vast range of machinery at our disposal for business development, we need even more investment in this field in order to move the market trend with European companies. Also taking into consideration that Kosovo has sufficient working force and that the youngest in Europe consider that the behavior of the machinery of latest technology and organization of training for staff and use of this machine would be very great success in youth, business development and will directly affect us in achieving success and market expansion outside of Kosovo.

We are open to partnership and will support you in all forms to move forward, so that our company be the leader in European market. We decided to orient our company towards the summit of the success so also ask your support for such a thing and ask you to invest in us because such an investment would be shot investment and investments which will bring results, very good, since the activity of our company is an event that warrants such a success.

# Satisfaction of the customer

Some of our Clients are :

- Kosovo Energy Corporation KEK
- Surface mining in the frame of KEK
- New Co Ferronickel
- Mining Stanterg
- Mining Golesh
- Mining Trepça
- Factory of Radiators “Jugoterm”
- Rubber products Factory “New Co Balkan”
- Factories for water and drinks packing.
- Factories for production of steel shape.
- Stone Cutter Companies.
- Kosovo railway
- Brick Factory –IMN etc.

# Quality

FACTORY IS IN POSSESSION OF:  
**CERTIFICATE ISO 9001:2008**  
By TUV Nord  
Production and quality management.

# FACTORY OF TOOLS “PLUS” L.L.C

**Basic Facts**

**Department of Production**

**Products Menu**

# These are some basic facts of our Factory

Total employed: **40**

Area of Factory: **3,500.00 m<sup>2</sup>**

Total area of Factory: **11,000.00 m<sup>2</sup>**

Total area of Factory: 11,000.00 m<sup>2</sup>

## **DEPARTMENT OF PRODUCTION**

**These are some of our  
Machines which are in  
Department of Production:**

**CNC TURN MACHINE**

**COORDINATE GRINDING  
MACHINE**

**COORDINATE DRILL MACHINE**

HYDRAULIC PRESS

MILLING MACHINE

GRINDING MACHINE

HEAT TREATMENT

HEAT TREATMENT

PLASMA CUT MACHINE

PLATE GRINDING MACHINE

PLATE GRINDING MACHINE

SAW MACHINE

TOURN MACHINES

TOURN MACHINES

# PRODUCTS MENU

Products that our Factory offers are:

- Tools for deformation, plastic injection measures, tools for plastic training measures , different axes, the dimensions of different gears , Chain gears, Pulley, Steel detail molding, different unique detail , Products with different shapes cut in Plasma and also of different materials.

The materials we use are all tested and followed up with a certificate from the manufacturer. Some of materials we use are : Guaranteed steels, Steels for improvement, steels for direct quenching, steels for cementation, Cast-iron of various kinds , copper, aluminum, brass, messing, erosion resistant materials, temperature to acid and rust etc.

**Please find below the catalogue of some of our products that we produce :**

**GEARS**

**CHAINS LINKS**

**CONNECTIONS ELEMENTS**

**DIFERENT TYPE OF ELEMENTS**

**SCALES**

# GEARS

Some type of gears which we produce are:

Cylindrical spur gear with straight teeth

Cylindrical spur gear with helix angle

Hypoid cylindrical gear

Hypoid conical gear

worm gear

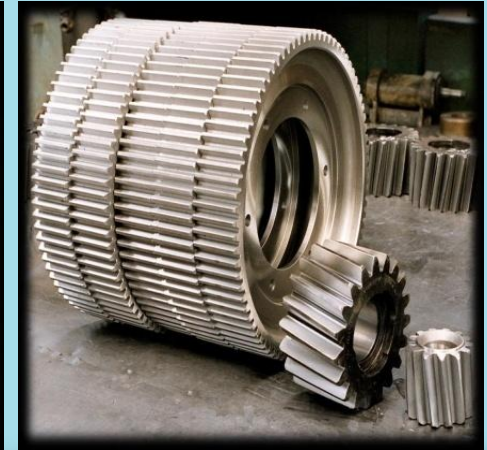

Parallel and involutes spines ,

coupling system with spiral springs

sprocket

V & timing pulley, etc.

conduit gate valves

# GEARS

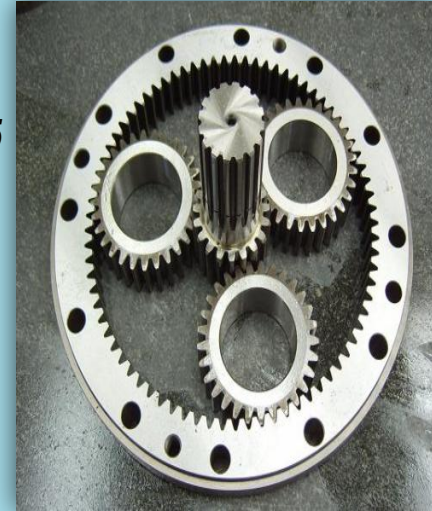

**CYLIDRICAL GEAR WITH  
STRAGHIT TEETH**

**MATERIAL: DIN - GS-42CrMo4**

**PLANETARY SYSTEM  
OF GEARS**

**MATERIAL: DIN 16MnCr5  
2M**

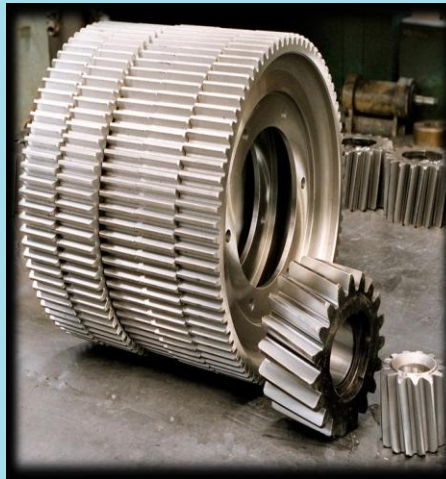

**CYLIDRICAL GEAR WITH  
STRAGHIT AND HELIX TEETH  
MATERIAL:**

**DIN – 16MnCr5**

**DIN - C60**

**DIN - 42CrMo4**

**PLASTIC**

**WORM GEAR**

**MATERIAL: CuPbSn5Z**

# GEARS

**CYLINDRICAL HYPOID GEAR**  
**MATERIAL: DIN – 16MnCr5**

**SPRING COUPLE TYPE**  
**MATERIAL: DIN –St-52**  
**DIN C60**  
**DIN 42CrMo4**

**HYPOID GEAR**  
**MATERIAL:**  
**DIN 16MnCrS5**

# CHAINS LINKS

## CHAIN LINK

### MATERIAL:

42CrMo4

C60

C45

HARDNESS 35 – 56 HRC

THICKNESS 1 – 12mm

## CHAIN LINK

### MATERIAL:

42CrMo4

C60

C45

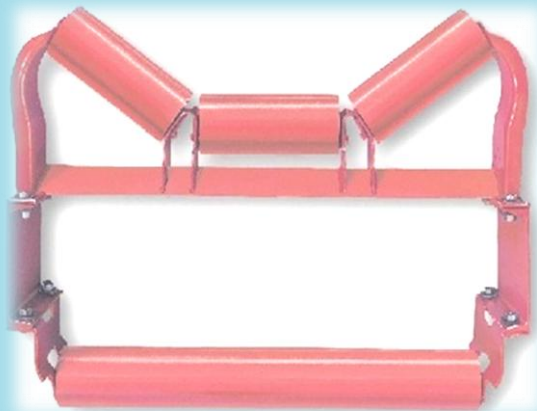

HARDNESS 35 – 56 HRC

THICKNESS 5 – 50mm

# DIFERENT ELEMENTS

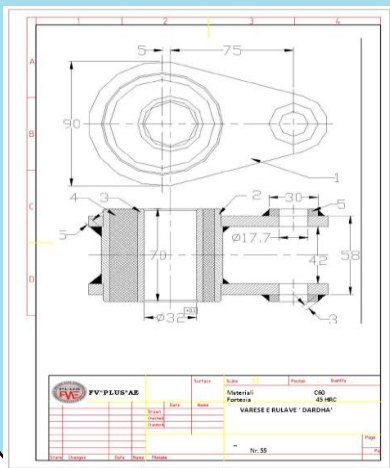

**HOOK WITH RUBBER**  
**MATERIAL:**  
**C45**  
**RUBBER**

**AXES**  
**MATERIAL:**  
**DIN – 16MnCr5**  
**DIN – C60**  
**DIN – 42CrMo4**  
**HARDNESS 35 – 55 HRC**  
**PLASTIC, ETC.**

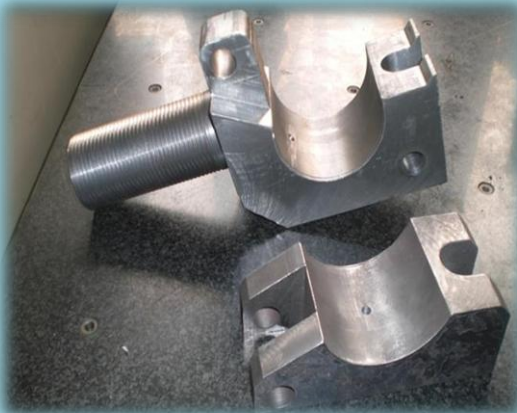

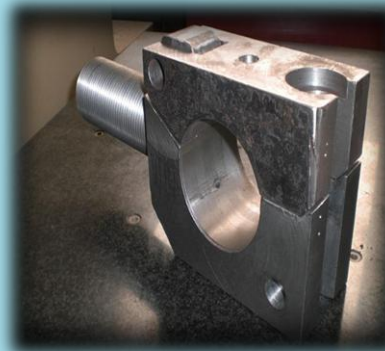

**FUNNEL**  
**MATERIAL:**  
**DIN GG40**

# DIFERENT ELEMENTS

**BUSHING**  
**MATERIAL:**  
**BRASS**  
**CuPbSn5**  
**PLASTIC.**

# DIFERENT ELEMENTS

***TIMING SPROCKET***

***MATERIAL:***

***GS-50Mn7***

***GS-42CrMo4***

***PLASTIC, ETC***

***ELASTIC PLATE FOR***

***COUPLING SYSTEM***

***MATERIAL:***

***BALANCED PIPE  
FOR TURBINES***

***MATERIAL:***

***DIN- St52***

***GREAT BAR***

***MATERIAL:***

***DIN – GS - 42CrMo4***

***DIN – GS-50Mn7***

# DIFERENT ELEMENTS

**WAGON WHEEL**

**MATERIAL:**

**DIN – GS-42CrMo4**

**DIN-42CrMo4**

**PLASMA CUT**

**MATERIAL:**

**DIN St52**

**PULLEY TYPE SPC 8**

**MATERIAL:**

**DIN – GG 20**

# SCALES
